

# MISSISSIPPI LAKES ASSOCIATION

Our Name...

You might have noticed that there is only one Mississippi Lake on the map, although we call ourselves the Mississippi **LAKES** Association. For as long as anyone can remember, the locals have spoken of four different sections of the lake as separate "lakes". They each have unique topography, charm, and character.

**First Lake** - starts at the Highway 7 bridge at Carleton Place and ends at the first narrowing off Lake Park.

**Second Lake** - is the wide section of the lake from Lake Park to the narrows starting off Kings Bay.

**The Narrows** - continue from there until the lake widens again off Black Bass Bay.

**The Big Lake** - is the deepest and largest part of the lake, ending at the Highway 7 bridge at Innisville.

And so the mystery is solved. We find it convenient to speak of these four "lakes", and trust that you too will come to know and enjoy them by their informal names.

Have fun out there - whichever lake you happen to be on!
